SUMMARY

I am a 20-year-old developer with 2 years of experience working on various types of projects and teams. My skills and experience are my strongest assets. Challenge me to discover my capabilities, and you'll see my commitment to excellence. I am passionate about improving my skills and constantly seek to enhance my coding abilities.

EXPERIENCE

Frontend developer

Password Manager

10/2024 IRAN

- **Developed** a secure, user-friendly password manager using Next.js and TypeScript
- **Implemented** dynamic, responsive UIs with Tailwind CSS and Ant Design
- **Integrated** NextAuth for seamless authentication and secured the platform with AES-256 encryption
- **Utilized** Swagger for API documentation, streamlining communication with the back-end team
- **Built** features like a password generator, secure sharing, and data breach alerts to enhance security
- **Collaborated** with back-end developers to ensure efficient data synchronization and robust encryption

Frontend developer

Parvande

08/2024 IRAN

- Developed a secure, scalable platform for lawyers to manage legal cases and streamline tasks between clients and lawyers, with a focus on efficiency, security, and user experience
- Collaborated with design teams to create a modern, user-friendly UI
- Implemented server-side and client-side security (authentication, encryption), ensuring data protection
- Optimized performance for fast load times and scalability
- Utilized Tailwind CSS and Ant Design for a responsive, consistent UI across devices

Frontend developer

Nerkhin

10/2023 - 01/2024 IRAN

- Developed the full front-end using Next.js, from initial setup to deployment
- Collaborated with the UI/UX team to accurately implement designs and enhance user experience
- Coordinated with the backend team (Go) to ensure seamless integration
- Optimized performance for faster page loads and a smoother user experience
- Tested and debugged the code to ensure cross-browser and device compatibility
- Implemented responsive design to support mobile and tablet devices

Frontend Teacher

Academy Birkar Technologists

03/2023 - 09/2023 IRAN

- Taught JavaScript and React.js to students ranging from beginners to advanced levels
- Designed lessons and hands-on projects to help students apply core concepts in real-world scenarios
- Created educational materials (slides, code examples, exercises) to enhance learning
- Provided one-on-one mentoring to help students overcome challenges and reach their goals

SKILLS

Next JS	React JS	Typescript	Javascript	Jest	React-Query	Redux	Zustand	NodeJs	
Mongo DB	Expressjs	Git	Github	Gitlab	Docker	CI/CD	Encryption	Mysql	Tailwind CSS
Webpack	Bootstrap	Ant Design	MUI	story-book	Data Structures
